

Peeler Storage Cases

Storage and carrying cases are now available to protect your tools from the elements and harsh jobsite conditions.

They can be purchased with new tools or as an addition to existing tools.

Features:

- Lightweight plastic shell with carrying handle
- Foam interior to cushion tools during storage
- Multiple sizes available to fit Split Peeler (SPL) and Pipe Surface Peeler (PSP)
- Custom foam interiors for select applications

Please inquire about custom sizes and applications!
