VAL-TEX QS-5000-C

Pneumatic/Hydraulic Lubrication Unit

**Large 5 lb. Capacity
FAST Injection!**

**Detachable
Cylinder for Easy
Loading and
Unloading by One
Person**

- Compare the efficiency of pumping 8 ounces of material using:
 - A hand held hydraulic gun: 350 strokes
 - The QS-5000-C: As little as 30 seconds
- The Val-Tex QS-5000-C allows you to save time and money on valve maintenance

The **Val-Tex QS-5000-C** is a fast, compact, and rugged lubrication unit that pumps 8 ounces of material in 30 to 60 seconds. With only 20 CFM at 100 PSI input pressure, the pump will produce up to 10,000 PSI.

The **QS-5000-C** weighs 156 lbs. and holds either a 5 lb. "V" size lube sealant sticks, a 4 lb. "P-4" lube packs, or Valve Flush. It comes standard with a durable metal reservoir for added protection. The frame is made of solid steel for additional toughness.

The **QS-5000-C** comes complete with a ten foot, 3/8" I.D. high pressure sealant hose, 15,000 PSI 2-1/2" liquid filled gauge, Gauge Guard, dual swivels, bleeder valve and a giant button head coupler.
