Dome Top Line Marker with Visibility Enhancer and T-anchor

The Carsonite LineMarker has a 3.5" diameter post with a 3.75" diameter domed enhancer for maximum visibility. White yellow and orange are standard; other colors are available. It's supplied with a T-anchor for protection against removal by vandals. Ideal for marking underground utilities and rights of way.

The enhancer comes in 18" or 24" length and comes with two custom, UV-resistant direct-printed graphics.

The LineMarker is made from tough, impact resistant thermoplastic polymer. Also available as a telecommunications or utility test station.
